Cairo, Egypt

SUMMARY

Data Analyst with **experience** in delivering actionable insights through data-driven solutions. Achievements include **building interactive Power BI/Tableau dashboards that improved decision-making** and **developing predictive models using Python and machine learning** to optimize performance. Strong expertise in **Python, SQL, Excel, Power BI, SPSS, Data Mining, and Applied AI**. Currently working as a **Data Analyst** and seeking a **Data Analyst/Data Scientist** role, with a solid educational background in **Data Analysis / Computer Science / Statistics**, and hands-on experience with **Python, SQL, Machine Learning, Tableau, Power BI, and Orange**.

EXPERIENCE

Junior Data Analyst with hands-on training through Digital Egypt (DigiLions), specializing in data analysis, visualization, and reporting. Experienced in working with real-world datasets using **Python, SQL, Excel, Power BI, Tableau, SPSS, Orange, and Data Mining**, with foundational knowledge of **Machine Learning and Applied AI**. Currently seeking an entry-level Data Analyst position where I can leverage strong analytical thinking, English communication, leadership, and soft skills to support data-driven decision-making and continue developing professionally.

EDUCATION

Faculty of Commerce, Tanta University

2023–2024

Bachelor of Commerce in Business Information Systems-good

- Relevant Coursework : Data Analysis, Business Intelligence, Statistics, Information Systems
- **Google Data Analytics Professional Certificate – Coursera**
- Data Cleaning & Preparation
- Data Analysis using **Excel, SQL, and Python**
- Data Visualization with dashboards and reports
- Foundations of data-driven decision making

SKILLS

Programming & Querying: **Python, SQL**

Data Analysis & Visualization: **Excel, Power BI, Tableau**

Statistical & Data Mining Tools: **SPSS, Orange**

Advanced Concepts: **Machine Learning, Applied AI, Data Mining**

LANGUAGES

Arabic — Native/Bilingual

English — Proficient

PROJECTS

- Analyzed structured business and financial datasets to extract actionable insights and support decision-making.
- Performed **data cleaning, preprocessing, and transformation** using **Python, SQL, and Excel**.
- Applied **statistical analysis and data mining techniques** to identify trends, patterns, and relationships.
- Designed interactive **dashboards and reports** using **Power BI and Tableau** to visualize KPIs and analytical results.
- Interpreted analytical outputs and communicated findings through clear documentation and presentations.

Additional Training:

- **Google Data Analytics Professional Certificate – Coursera**
- Data Cleaning & Analysis using **Excel, SQL, and Python**
- Data Visualization and Reporting
- Data-driven decision making foundations
